## 5 Star Product Rating Based on 1200+ Reviews

### Lifesaver

"It has been amazing for our 13 year old dog. He is able to move way better and not be in so much discomfort! Part of his daily routine for life now!"

**Cindy D. - Verified Buyer**

### No more shedding!

"I have an English mastiff and he typically sheds non stop and links his paws all the time. These both have stopped. Thrilled"

**Robert B. - Verified Buyer**

### Camelina Oil

"Noticed improvement in mobility and reduced limping in our dog."

**Mario L. - Verified Buyer**

### Game Changer

"Our 2 year old frenchton (french bulldog/boston terrier mix) has severe seasonal allergies and allergy to chicken this has been extremely helpful. She also has issues with her joints again this has been beneficial. We also give it to our Boston-Yorkie mix and his coat is beautiful. We will definitely be long time customers."

**Kathy D. - Verified Buyer**

### Happy Customer

"I am very pleased my ten year old spaniel injured her hind legs about 4 years ago and was having a lot of pain and difficulty walking and sitting. The vet suggested trying Omega 3. Tried capsules first then heard about Smart Earth and Camelina oil. I am happy to say that she is walking better, the legs are much stronger and wanting to play with our big lab. Also her coat is softer and her eyes brighter and a much happier dog. Only regret is that I didn't find out about your oil sooner. Our lab is also on it and it seems to be helping with his allergies and coat is also much shinier, so a very satisfied customer. I have already ordered the jug for further use."

### Helping Rosko

"My dog Rosko was having skin issues with welts, loosing hair, inflammation in this paws, etc. I found out that his is allergic to dead moldy leaves, and possibly an allergy to chicken. I got frustrated going to the vet over and over again to get the same meds that I felt they didn't work. I saw the advertisement on Camelina Oil on Facebook and decided I had nothing to lose in trying it on Rosko. After giving Rosko Camelina Oil in his meals for a few weeks, his skin started to clear up and got better as time went by. I even discussed it with my vet and she had a look at the Camelina Oil ingredients and told me there is no harm in giving it to Rosko. I don't think I'll ever stop giving Rosko or my cats Camelina Oil any time soon!"

### Doggone Good

"Have been using Camelina for my aging dogs, two, since the middle of 2021. The older of the two is thirteen, Boston Bull/Jack Russell mix and has been suffering with liver disease. The other dog is a Boxer rescue and I believe she is approximately seven. I started using Camelina to possibly alleviate the aches and pains associated with geriatric dogs. I can tell you the Jack/Russell is still with me and the Boxer has the energy of a three year old. There coats are thick and extremely healthy and both are willing to walk on a good Canadian winter day. In my opinion, Camelina Oil has kept both dogs in great shape for aging dogs and I'm happy with the results. Oh, also the guys like the flavour sprinkled on their food, as prescribed, and I'll continue to use Camelina Oil."

### Will Re-purchase!!

"My dogs are in love with the taste and my dog who was suffering from skin problems is already looking so much better. One bottle has lasted me 2 months. If you are questioning if you should purchase, the answer is yes. My dogs coats are smooth and shiny and like I said, my dogs skin has improved significantly. Very very happy with Camelina Oil. Thank you."

**Josee L. - Verified Buyer**

### I ordered for my Whippet dog

"After about 1/2 bottle, we noticed his allergies were less severe. We are now nearing the end of the 2nd bottle and his allergies are 80% better. Very little scratching and very little rubbing the sides of his face with his paws. We will be buying again."

**Bob S. - Verified Buyer**
