SUPPLEMENT  
FROM NATURE**

- ✓ Joint health & function
- ✓ Support coat & hoof quality
- ✓ Maintain or support a healthy weight

#### Ingredients:

Cold-pressed Camelina Oil (non-GMO)

Horse - 128 servings per gallon (1oz/1000lb)

**ALSO AVAILABLE IN CANINE SIZE - 16oz, 64oz**

## The best thing since sliced bread

"We have horses in varying stages of life from a 29 year old to an 18 month old. All of them have been helped with this product. Our 28 is running around the pasture like he's a teenager again, our 22 year old who has bad knees from an accident several years ago is now running patterns for my husband and daughter in cowboy mounted shooting. The 18 year old is high free this summer for the first time ever. Our 11 year old's hocks aren't swollen anymore. Our adopted Mustang has a swollen spot on his neck from a previous injury that is shrinking. Our newest member also the youngest, came to us with a dry coat and sensitive skin. She is silky and no more scratch marks. All of their coats, manes and tails are amazingly soft and shiny. Our Arabians mane is tangle free for the first time since we brought her home. We are we love this product more than words can say. Thank you!!!"

## Changed my horses lives

"I thought I was going to have to put my 32 year old horse down last year. I held off and started giving him camelina oil, the change in him was more than amazing! He went from being very stiff and sore to being his young self again. I had given up on riding him, but after seeing the change, I saw that I could still take my soulmate out for casual rides. I had another horse that seemed to become stiff and arthritic and thought what the heck... I started on camelina oil and within a week she was back to being able to move easily and she's on the road to getting back in the saddle. I believe truly in this product; it is amazing and I will continue to supply my horses with it. We have even started giving the dogs some."

## My Horse

"I have been feeding camelina oil for 1 year now and my horses shine and hold their weight. My TB mare has kissin spine and is not lame or sore in her front feet anymore. She now rolls on her side in the mud while before she would not lay down to sleep. I am so happy with this product!"

## Great supplement!

"My 28 year old mare has been on camelina oil for a little over a year and has kept her aging joints comfortable. She used to bolt and buck but is steady and sane all the time now. I am very happy with the results!"

## Great results!

"I started using this oil about three months ago and have seen great results in my retired American saddlebred. He was struggling to keep weight on and also has a history of stomach ulcers. His ribs were showing and within a month of using camelina oil he has filled out and seems overall happier. We will continue to use this product"

## The next best thing to a miracle

"I started using Smart Earths camelina oil a few months ago for my four horses as a test to see if it was really as good as everyone was claiming. I have a 27 year old QH gelding who loses weight every fall/winter and struggles with heaves. We just finished a terrible summer for heaves which actually claimed the life of at least one horse that I know personally, and to my relief my old boy had the best summer he has had in many years! I am giving all the glory to the addition of camelina oil! His coat is bright and shiny, his hooves are healthier and his quality of life is greatly improved. We were going to euthanize him this fall so we didn't have to struggle through the winter but we have changed our minds after seeing the results of the camelina oil. The other horses in the herd are healthier looking, have maintained healthy weights, have greatly improved coats and are well prepared for a northern Ontario winter. I can't say enough good things about smart earth camelina oil and I will be keeping our horses on it indefinitely. Thank you Smart Earth"
